Training

(advanced registration required)

8-Hour Hazwoper Refresher

Annual refresher requirement of the 40-hour hazardous waste site work course (29 CFR 1910.120). Where possible this course will focus on day-to-day hazardous materials handling safety.

Monday, June 7 • 8 a.m.-5 p.m. • \$150

Advanced Toxicology

Designed to improve general understanding of toxicology. By building on basic principles of toxicology, participants will be introduced to more complex methodology.

Thursday, June 10 • 8 a.m.-Noon • \$75

Facilitating Behavior Change in the HHW World

This hands-on workshop will help you create more effective communications and outreach projects related to hazardous household products and waste. Find out how to change your audience's behavior instead of just increasing their awareness.

Thursday, June 10 • 8 a.m.-Noon • \$75

Tour

Waste Management's Columbia Ridge Landfill

Tour Waste Management's Columbia Ridge Landfill and Recycling Center in Arlington, OR. This is a massive Subtitle C and D landfill.

Monday, June 7 • 8 a.m.-5 p.m. • \$50 (lunch included)

Keynote speakers

Debbie Raphael
Program Manager, City &
County of San Francisco's Toxics Reduction
and Green Building Programs

Gemma Zecchini
CEO (Interim), Stewardship Ontario, Canada

North American Hazardous Materials
Management Association
